

We have the 2014 DayCor® Superb™ Corona Camera available for rental!  
The DayCor® Superb™ is the **Flagship camera from Ofil Ltd.**

Rent the latest 2014 model DayCor® Superb™ UVc corona and arcing detection camera from Eklund Infrared/Eklund Innovation Inc. in Marietta, GA

It incorporates the latest features from Ofil such as:

- Highest sensitivity of any Corona Camera
- Bi-spectral sensing in the visible and 260 nanometer band
- Solar-Blind Lindner filter
- Color LCD display
- Snapshot picture taking on camera with storage on SD memory card.
- Video recording with audio and playback function on camera to SD card
- Fast image processing for exact registration of the visual versus UV Corona image, important for fast movements and when used in Air or in moving Land vehicles
- Latest Ofil 2014 version of the **DayCor® Superb™** camera.
- Identifies Corona location and damage in daylight with pinpoint accuracy

Increase the Grid reliability by surveying substations and overhead lines for Corona using the handheld DayCor® Superb™ Corona Detection Camera.

It is available for rental on a **weekly or monthly basis** with affordable pricing. Longer period rentals are available.

The DayCor® Superb™ technological innovations include such exclusive items as dedicated Quartz Catadioptric optics with fast auto-focus, proprietary Lindner UV filters and high quality surface mount components in a light weight carbon fiber body. Human engineering design presents a camera that can be used with safety presenting the image on a large Color LCD screen. No eyepiece needed. It is designed to allow for Teamwork with perfect group viewing of corona events as a feature.

It Accurately pinpoints sources of Electrical Corona events, Arcing, Partial discharge and Micro Arcing!

Please check with us for availability and pricing. We can provide long term rental

Find corona problems before they become costly maintenance issues by renting the DayCor® Corona Camera from Eklund Infrared Inc.!
